Resolution Re: Trans-Pacific Partnership

WHEREAS the Trans-Pacific Partnership (“TPP”) agreement invalidates laws and regulations of the United States and replaces them with rules being negotiated in secret between the Obama Administration, multinational corporations, and foreign governments;

WHEREAS Members of Congress have not seen the full agreement and may only be able to deliver an up or down vote under fast track;

WHEREAS The little Americans do know about TPP indicates that, among other things, it will wreak havoc on national, state, and local environmental, food safety, and financial reform laws and regulations; and

WHEREAS the TPP will protect multinational corporations from accountability to American government at all levels.

**THEREFORE, BE IT RESOLVED** that the Village Independent Democrats calls on our federal, state, and local officials to vote, speak out, and otherwise take a stand against fast track, the TPP, and other similar trade agreements.
