**RESOLUTION: VILLAGE INDEPENDENT DEMOCRATS URGE
IMMEDIATE GOVERNMENT ACTION AGAINST CLIMATE CHANGE**

WHEREAS “climate change” is real, as clearly and excellently documented in Naomi Klein’s book, “THIS CHANGES EVERYTHING: Capitalism vs. the Climate,” and,

WHEREAS the membership of Village Independent Democrats and other New York City residents live in a region that will negatively impacted by the projected disaster wrought by climate change, and,

WHEREAS hundreds of thousands of people filled the streets of Manhattan on Sunday, September 21, calling for climate justice in the largest mass protest to date against government and corporate inaction on the overheating of our planet,

THEREFORE, be it resolved that Village Independent Democrats publicly announces our concern about climate change and urges government to act immediately.
